

Preparing Your Quilt for A Long Arm Quilter

- Pressing – Make sure that your seams are all pressed correctly, the top & back are well pressed and wrinkle free.
- Trimming and reinforcing – Make sure loose threads are trimmed from both sides of the quilt. If there are any weak seams reinforce them.
- Stay-stitch the edges of the quilt - Sew 1/8 inch from the edge of all sides. This will prevent the edges of the seams from coming undone.
- Batting & Backing – Make sure your batting and backing are 4 inches larger than your quilt top on all sides. If your quilt is predominantly dark, provide dark batting.
